BUILDING & DEVELOPMENT PERMITS & SHORELINE DEVELOPMENT

When are permits required?

The Resort Village of Wakaw Lake requires building and development permits for all projects to ensure that the development standards in *The Zoning Bylaw* are followed. This includes grading, adding gravel, paving, and any alteration to natural drainage.

Development permits are also required for sheds to ensure proper setbacks are followed. There is no cost for a development permit.

All projects on the municipal reserve and crown land by the shoreline require approval from the Water Security Agency (WSA.) Projects completed without approval are subject to significant fines from the WSA.

Building and developing without proper permits is illegal and can be costly. If development standards are not followed, you will be asked to comply with the Zoning Bylaw.

Projects completed in the Poplar Beach Campground must conform to the Resort Village of Wakaw Lake Zoning Bylaw.

Campground permits must be sent to the municipal office for approval by the Development Officer. The Board of Directors for the Campground will no longer be approving permits.
